## Where to find the Credit Card Verification Code (CCV)

For VISA and MasterCard the number is the **last 3 digits** (usually set off by themselves) in the Signature Panel area on the back of the credit card.

For American Express, look for a 4-digit number printed *above your account number* on the face of the card.

## What is the purpose of this number?

This number is used when processing payment to verify that a customer actually has the credit card in their possession.
